## UKRAINIANS AND POLES FIGHTING

There Is Hope However, That An Armistice May Be Arranged.

Lemberg, March 8.—Although fighting is still going on here between the Poles and Ukrainians, with the latter bombarding the city, there is still hope that an armistice may be arranged between the contending forces. It is believed, however, that before a truce is established there will be more severe fighting.

The renewed bombardment of the city has been attended by considerable loss of life among civilians and damage to public buildings and works of art. The people move about the city freely during the day, but the artillery fire is very heavy at night. An average of 200 shells fall in the city daily, most of them being aimed at the railroad station. Some projectiles, however, have fallen in residential sections and have struck the residence of Archbishop Shipitsky, a noted Ukrainian patriot. Small shells have also struck the Ruthenian church and others have damaged the home of Count Plinskiy, which is famous for its collection of art. Colonel Smyth of the British army, who is still here, has been empowered by the Inter-Allied mission to make a report on the situation. The Ukrainians are said to feel that they have been treated unfairly by the mission and that their claims are misunderstood, particularly by the French. They say the mission spent only an hour with Ukrainian leaders and spoke briefly, through an interpreter, with a delegation of ten Ukrainians which came from Kiev to outline the claims of the republic. The police and military situation at Kiev is said to be uncertain. It is reported that the city of Kiev is dominated by M. Rakowski, premier of the Ukrainian Soviet ministry, with whom is associated M. Piatkoff, of Moscow, a Bolshevik whose father was a millionaire merchant.

London, Friday, March 7.—Describing the fighting in Berlin on Thursday night a despatch to the Exchange Telegraph Company from Copenhagen says that during the whole night there were heavy detonations of cannon and explosions in the district where fighting was taking place. Flame throwers and trench weapons of all kinds were employed in the struggle which was violent around the police headquarters, which the Spartacists made desperate efforts to capture. Late in the evening government troops under General von Luttwitz reported to number 50,000, entered Berlin and surrounded a great part of the center of the city, it is said.

At a stormy meeting Thursday evening the Soldiers and Workmen's Council decided to extend the strike to the electric power plants and gas and water works, it is reported. ## Divided Into Two Classes, Submarine Atrocities, and Due to Other Acts.

TOOK MONTHS TO COMPILE LIST

At Outbreak of War we Had \$3,000,000,000 Properties In Enemy Countries.

Washington, March 8.—Claims filed by American citizens and concerns with the State Department against Germany and Austria-Hungary total about \$750,000,000, the State Department announced today. Additional claims are expected.

The claims, which will run into the thousands, are divided into two classes, those arising from submarine atrocities and those due to other acts of the Central Empire. The State Department for several months has had a large force engaged in compiling American losses.

Included in the items comprising claims growing out of submarine warfare are losses alleged for death and injury of American citizens, losses suffered in the destruction or of damage to American vessels, losses suffered in connection with American cargoes, losses in American and foreign bottoms, and the loss of much valuable personal property other than cargoes.

Lesser due to other acts of Germany and Austria-Hungary include destruction and requisition of American properties both in enemy territory and territory occupied at various times by enemy forces.

The State Department's statistics show that American citizens at the outbreak of the war had about \$300,000,000 worth of property in enemy countries and in those which have been under enemy occupation. Heavy losses have resulted in connection with this property as a result of war measures taken by the Central Powers.

## TAKE PICTURES OF ARMY DISCHARGES

Many discharged soldiers who are anxious to obtain the \$50 bonus offered by the War Department are somewhat reluctant about forwarding their discharges to Washington, fearing that they may become lost in the mail.

It is suggested that before forwarding the discharge a photograph be taken of it and that the photograph be retained. In the event the original discharge is lost in the mails this photograph with a post office registration receipt accompanied by two affidavits by responsible parties who know the circumstances connected with the lost discharge, will be sufficient proof to obtain from the War Department a certificate of Army discharge.

The envelope containing the discharge should, of course, be registered at the time it is mailed.
